MoorMan’s® ShowTec® Starter/Grower
A Complete Feed for Starting/Growing Pigs Being Fed for Exhibition

Product Number
- ShowTec Starter/Grower WDC 272AE
- ShowTec Starter/Grower LN/FBZ 11148AE
- ShowTec Starter/Grower TY 11273AB

Product Positioning
ShowTec Starter/Grower products are pelleted, complete feeds designed for today’s starting/growing show pigs being fed for exhibition.
- 272AE ShowTec Starter/Grower WDC – For pigs 15 to 75 lb body weight.
- 11148AE ShowTec Starter/Grower LN/FBZ – For pigs 25 to 75 lb body weight.
- 11273AB ShowTec Starter/Grower TY – For pigs from 50 lb to show weight.

Features
- Provides multiple protein sources plus synthetic amino acids

Benefits
- Enhanced performance and feed conversion.

Select ingredients
- Assures consistency; eliminates feed variance.

Research proven ingredients
- Proven performance.

Ideal amino acid balanced
- Optimum lean gain.

Essential vitamins and minerals
- Optimum health and structural growth.

Higher levels of pantothenic acid
- Shown to increase carcass lean and decrease carcass backfat probably by redirecting energy away from body fat accretion toward more favorable biological process of protein accretion.

CitriStim®
- An ADM proprietary feed ingredient, which is a source of yeast mannans and beta glucans that may alter gut microflora, resulting in enhanced performance.

PremiDex™
- ADM research has shown positive effects on performance, resulting from beneficial changes of gut microflora.

Alliance Nutrition exclusive flavoring
- Entices pigs to consume feed, leading to higher feed intake, resulting in faster gains.

Additive options
- Enables exhibitors to match additives to specific needs.

Pellet form
- Encourages feed consumption for faster gain and more efficient feeding.

Product Form — 272AE—mini-pellet form; 11148AE—pellet form; 11273AB—pellet form; 50 lb bags.

Guaranteed Analysis
- Crude Protein, min. 20.0%
- Lysine, min. 1.2%
- Crude Fat, min. 3.5%
- Crude Fiber, max. 4.0%
- Calcium (Ca), min. 0.7%
- Calcium (Ca), max. 1.2%
- Phosphorus (P), min. 0.6%
- Salt (NaCl), min. 0.3%
- Salt (NaCl), max. 0.8%
- Selenium (Se), min. 0.3 ppm
- Zinc (Zn), min.* 1200 ppm

*Product no. 272 provides 500 ppm zinc.

Ingredients*
- Ground Corn, Dehulled Soybean Meal, Dried Whey, Animal Fat preserved with BHA, Soybean Meal, Monocalcium Phosphate, Dicalcium Phosphate, Lignin Sulfonate, Blood Meal, Fish Meal, Calcium Carbonate, Salt, L-Lysine, BHT, Sodium Propionate (preservatives), Extracted Citric Acid Presscake, Wheat Dextrin, Yeast Culture (Saccharomyces cerevisiae), Diatomaceous Earth, Copper Sulfate, Natural and Artificial Flavors, DL-Methionine, Zinc Oxide, Ferrous Sulfate, Soy Lecithin, Defluorinated Phosphate, Mineral Oil, Niacin Supplement, Manganese Sulfate, Zinc Sulfate, Vitamin E Supplement, Calcium Pantothenate, Magnesium Oxide, Biotin, Menadione Dimethylpyrimidinol Bisulfite, Vitamin A Supplement, Riboflavin Supplement, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Folic Acid, Calcium Iodate, Vitamin D3 Supplement, Sodium Selenite.

*Ingredients may vary depending on product.
ShowTec Starter/Grower LN/FBZ Medicated 11148AE
A Complete Feed for Starting/Growing Pigs Being Fed for Exhibition

For reduction in the severity of swine mycoplasmal pneumonia caused by Mycoplasma hyopneumoniae.

FOR THE REMOVAL OF: Lungworms: Metastrongylus apri and Metastrongylus pudendotectus. Gastrointestinal worms: Adult and larvae (L3, L4 stages, liver, lung, intestinal forms) large roundworm (Ascaris suum); nodular worm (Oesophagostomum dentatum, Ornithostrongylus quadririspinulatum); small stomach worm (Hyostrongylus rubidus); adult and larvae (L3, L4 stages - intestinal mucosal forms) whipworm (Trichuris suis); Kidneyworm: Adult and larvae Stephanurus dentatus.

Active Drug Ingredients
Lincomycin (lincomycin hydrochloride) .............................................. 200 grams/ton (100 mg/lb)
Fenbendazole ................................................................................ 29.2 grams/ton (14.6 mg/lb)

Feeding Directions

Feed as the sole ration in a complete feed for a period of 3-12 days to provide a total intake of 9 mg/kg of body weight of fenbendazole (4.08 mg/lb). Feed as the sole ration 0.28 lb of this product per pound of live weight to be dewormed. The number of days it will take pigs to consume the proper deworming dose of this product depends on the body weight and condition of the pigs to be treated. The following table can be used as a guide for feeding this product.

<table>
<thead>
<tr>
<th>Body Weight of Pig to be Dewormed</th>
<th>Amount of ShowTec LN/FBZ Required per Pig</th>
<th>Approx. Days Required to Consume Dose</th>
</tr>
</thead>
<tbody>
<tr>
<td>25 lb</td>
<td>7.0 lb</td>
<td>7</td>
</tr>
<tr>
<td>50 lb</td>
<td>14.0 lb</td>
<td>7</td>
</tr>
<tr>
<td>75 lb</td>
<td>21.0 lb</td>
<td>7</td>
</tr>
</tbody>
</table>

One hundred pounds of this product will deworm 7 pigs weighing 50 lb or 350 lb live weight.

After pigs have consumed the proper amount of ShowTec Starter/Grower LN/FBZ, they should be changed to an approved MoorMan's ration. Consult your veterinarian for assistance in the diagnosis, treatment, and control of parasitism. Swine maintained under conditions of constant worm exposure may require retreatment within 4 weeks after the first treatment due to reinfestation.

(See Warning and Caution Statements on next page.)
**CAUTION:** Occasionally, swine fed lincomycin may within the first 2 days after the onset of treatment develop diarrhea and/or swelling of the anus. On rare occasions, some pigs may show reddening of the skin and irritable behavior. These conditions have been self-correcting within 5 to 8 days without discontinuing the lincomycin treatment. Do not allow rabbits, hamsters, guinea pigs, horses, or ruminants access to feed containing lincomycin. Ingestion by these species may result in severe gastrointestinal effects.

### ShowTec Starter/Grower TY Medicated 11273AB
**A Complete Feed for Starting/Growing Pigs Being Fed for Exhibition**

For maintaining weight gains and feed efficiency in the presence of atrophic rhinitis.

For the prevention and/or control of porcine proliferative enteropathies (ileitis) associated with *Lawsonia intracellularis*.

**Active Drug Ingredient**

| Tylosin | 100 grams/ton (50 mg/lb) |

**Feeding Directions**

MoorMan’s ShowTec Starter/Grower TY is a complete feed specifically formulated for pigs fed for exhibition. It should be fed continuously as the sole medication to pigs weighing not less than 30 lb body weight. Specific feeding instructions may vary according to the goals of the feeding program for show pigs. Generally, pigs can be fed ad libitum, or feed may be restricted to achieve desired growth rates. If pigs are being fed ShowTec Starter/Grower TY for the prevention and/or control of ileitis (see claim above) administer for 21 days.
